

SOFWERX

Boys and Girls Club of Tampa Bay STEM Day

16 March 2021

SOFWERX hosted middle school students from the Boys and Girls Club of Tampa Bay for the first STEM Day of 2021. This event was designed to increase the students' knowledge about collaboration and innovation.

Event Outcomes

- 9 middle school students participated in various hands-on activities facilitated by the SOFWERX Team. Activities included a drone demonstration, Collaboration Event (CE), prototyping, and paper circuit education.
- Students listened to a SOFWERX 101 given by Director, Leslie Babich, and toured the facility, led by Public Relations and Communications Specialist, Christina Heard.
- SOFWERX looks forward to more STEM events in 2021, as more opportunities arise to host young innovators interested in science, technology, engineering, and mathematic career fields.
