Think Big for Kids STEM Career Fair

26 July 2021

SOFWERX partnered with Think Big for Kids to host an interactive career fair for high school students. The event featured SOFWERX staff members, from seven departments, showcasing and engaging with the students about their department's roles, responsibilities, latest technology, and current projects.

Event Outcomes

• 16 high school students participated in a career fair, SOFWERX 101, and tour of the facility.

• Tables and interactive displays were present for the Events, Research Support, Marketing, Foundry, Nerd Herd, Cyber/Engineering, and Chief Technology Officer departments.

• SOFWERX looks forward to connecting with more students to explore various career fields within science, technology, engineering, and math.
