TECH TALK

ARMI - BioFabUSA Employee Workforce Development (EWD) Pathways Summit Tech Talk

18-19 June 2018

Event Outcomes

On 18-19 June 2018, SOFWERX, in collaboration with USSOCOM, hosted the ARMI - BioFabUSA EWD Pathways Summit Tech Talk to evaluate and progress the growing rate of the professional biofabrication field.

This workshop identified and analyzed gaps in the development pathways towards a workforce in Regenerative Manufacturing. The discussions and sessions will be focused on topics including: K-12 opportunities, small business needs, undergraduate education, graduate education, community college education, and programs aimed at training veterans.

- Attendees made recommendations for ways to meet the needs of the Regenerative Manufacturing workforce.
- Groups discussed and organized a path forward.
- Each group presented their recommendations to all attendees for further discussion and collaboration
