Disruptive Speaker Series - Humans Over Hardware: Posturing the SOF Enterprise for the Future

3 March 2020

Event Outcomes

On 3 March 2020, SOFWERX, in collaboration with the USSOCOM J5 Donovan Strategy and Innovation Group, hosted a Disruptive Speaker Series entitled, "Humans over Hardware: Posturing the SOF Enterprise for the Future," presented by Dr. Lydia Kostopoulos.

Dr. Kostopoulos is a Strategy and Innovation Advisor for the USSOCOM J5 Donovan Group, where she analyzes strategic trends relevant to Special Operations in the context of emerging technologies.

MSG Matt Parrish and Mr. Tim Ringo, from USSOCOM's Preservation of the Force and Family (POTFF), also presented, "A Holistic Approach to Readiness."

- Over 60 Government, Industry, Academic and Lab representatives attended in person.
- Over 35 outstations participated virtually.
- Dr. Kostopoulos continues to analyze strategic trends relevant to Special Operations in the context of emerging technologies.
