

SOFWERX

Florida College Academy Aviation Experience

17 December 2021

SOFWERX hosted middle school students and faculty from Florida College Academy for an Aviation Experience. This engagement is part of a continuing and thriving STEM partnership with Florida College Academy. Activities included flight simulators, drone simulators, festive paper circuits, the SOFWERX brief, and tour of the facility.

Event Outcomes

- 11 middle school students participated in various aviation activities.
- Students interacted with flight and drone simulators to learn about the different mechanics and aspects of aviation.
- A tour of the SOFWERX facility provided insight into the innovative manufacturing capabilities.
- Educational materials and discussions about the aviation and engineering career fields were provided to students.
