

FIRST® LEGO® League Challenge Scrimmage

30 October 2021

SOFWERX, in collaboration with the FIRST® LEGO® League, hosted the first Challenge Scrimmage of the year. The purpose of FIRST® LEGO® League is to guide youth through STEM learning and exploration at an early age. From Discover, to Explore, and then to Challenge, students understand the basics of STEM and apply their knowledge in an exciting competition while building habits of learning, confidence, and teamwork skills along the way.

Event Outcomes

- 13 students and 12 coaches were introduced to FIRST® robotics and the 2021 LEGO® League season.
- Students learned about the different missions and rules, FIRST® Core Values, Gracious Professionalism®, Coopertition®, and the theme for the year, Cargo Connect.
- Three two-and-a-half-minute robot missions were completed on side-by-side Cargo Connect tables.
