

# SOFWERX

## Pinecrest Academy STEM Day

### 23 September 2020

SOFWERX, alongside Aviation Kids USA, had the opportunity to participate in Pinecrest Academy's STEM Day. This day-long event included several activities, led by various organizations, centered around aviation. SOFWERX donated additional materials to assist the participants with their stations such as the USF Institute for Applied Engineering's paper circuit session. The STEM Day provided a great opportunity to get back into the classroom, teaching future STEM professionals.

### Event Outcomes

- Over 600 students participated in the event both in person and virtually.
- 11 organizations sponsored/assisted with the day's sessions.
- SOFWERX employees and interns helped facilitate activities at the students' stations to include drone demonstrations, flight simulators, and soldering.
