SOFWERX

PRIZE CHALLENGE

MIL-OSS Hackathon

21-22 May 2016

Building on the success of the October 2015 Hackathon at SOFWERX, we have new challenges, all with a focus on supporting the Warfighter. We've worked closely with U.S. Special Operations Command, U.S. Central Command and other organizations across Tampa Bay to develop Hackathon challenges that support the Mil-OSS goals of improving use of the taxpayers' funds through requirements extraction, wise execution, and streamlined delivery by leveraging open source and open technology innovation.

Event Outcomes

- Actual SOF Challenges
- Broad community participation
- Generated follow-on activities
- Multi-Agency/SOF Stakeholders
- Novel data declassification
- Generated functional software
