Robotics League Practice Day

13 October 2018

On Saturday, 13 October, SOFWERX hosted students, parents, and advisors from six local schools for a Robotics League Practice Day. Five teams from local middle schools took over ThunderDrone to build and test their robots. Robotics superstar, Middleton High School, sent three advisors to evaluate the teams' projects for upcoming competitions. Barrington Middle School was given a hands-on opportunity to explore and participate, as they begin to build a robotics program. SOFWERX was proud to facilitate a day full of innovation and growth for these rising STEM stars.

Event Outcomes

- 34 students and parents attended.
- Six different schools were represented.
- Four separate robots were tested.
- Three high school students served as advisors to middle school participants.
