

# Future Technologies for Unified SOF Common Operational Picture (COP) Assessment Event (AE)

31 August 2021

Event Outcomes

SOFWERX, in collaboration with USSOCOM PEO SOF Digital Applications (PEO-SDA), hosted a Virtual Assessment Event (AE), under the USSOCOM Commercial Solution Opening (CSO) for SDA, to identify future technologies to accelerate the application of innovative commercial software into deployable warfighting capabilities. PEO-SDA sought innovation in the development and fielding of future software components advancing a modular open systems approach to the Mission Command System (MCS)/ Common Operational Picture (COP).

- Out of 61 submissions, USSOCOM selected 6 organizations to take part in discussions with the Government panel.
- Virtual one-on-one sessions were hosted to allow Industry to brief their solutions and be asked specific questions by the Government Stakeholders.
- Based on the outcome of the one-on-one discussions, USSOCOM will downselect their top candidate(s) to advance to the next phase of this effort.
