

SOFWERX

Science & Technology Special Reconnaissance Rapid Prototyping Event (RPE)

8-12 July 2019

Event Outcomes

On 8-12 July, SOFWERX, in collaboration with USSOCOM, hosted a SOF Special Reconnaissance Rapid Prototyping Event, to develop and produce a “Technology Road Map” to provide a system/ subsystem level breakdown of technology partners, their technology maturity, risk and provide insight for next steps for technology investment opportunities.

Focus Areas:

- Autonomy & Intelligence
- Hardware
- Human-Machine Interface
- Communications

- Over 50 Government, Industry and Academia representatives attended to refine and continue development of the Innovation Foundry 3.0 (IF3) solutions (RAS AI) to conduct SR in 2030.
- USSOCOM selected Subject Matter Experts, Illustrators and Graphics Designers to engage in conceptual block system plan diagramming, integrated group work and group storyboarding.
- Insight gained from the RPE will be used to shape future efforts for USSOCOM.
