

Support Truck Prototype Virtual Assessment Event (AE)

04 January 2023

SOFWERX, in collaboration with USSOCOM, U.S. Army Combat Capabilities Development Command Chemical Biological Center (DEVCOM CBC), the U.S. Navy, and the Accelerator for Innovative Minds (AIM), hosted a Virtual Assessment Event (AE) leveraging their hybrid accelerator model to develop a proof of concept for an advanced manufacturing mobile workstation. This event provided opportunities for direct dialogue with Warfighters, and Government Subject Matter Experts (SMEs) to lower the barrier to working with the DoD and accelerate disruptive technologies and processing to the field.

Event Outcomes

- 14 Industry participants from 4 organizations presented their technology briefs to the Government team
- Government representatives from Acquisition, NIOD Groton, and U.S. Navy PMO participated in the one-on-ones
- Out of 8 submissions, 4 organizations were selected to present
- USSOCOM will make their decision as to which organizations they will choose to move forward with within two weeks
