

Future Smart: Emerging Tech Trends with Dr. James Canton

24 February 2017

Dr. James Canton visited SOFWERX to present his seminar "Future Smart" which looked at the various technologies that will impact the battlefield in the near future. Over fifty members from SOCOM, CENTCOM, FBI, DARPA, Commerce, Allied Partners, Secret Service, DIA, and Treasury attended in person or via webinar. Dr. Canton has been a long time friend of SOCOM and will continue to team and advise in collaboration with SOFWERX futures initiatives.

Event Outcomes

- Dr. Canton will be part of the BUGLIGHT Tactical Strike Team Initiative
- Dr. Canton will be teaming with SOFWERX on a series of novel technologies to support the SOF warfighter to include wound healing solutions, CBRN solutions, AI, machine learning, nano tech and high performance and quantum computing solutions
- Dr. Canton will serve as a non-resident technology expert to the command
- Dr. Canton will function in an advisory capacity on critical projects of interest
- Dr. Canton has been invited to attend at SOFIC and present as a SOFWERX guest
