

December Tech Talk Thursday

01 December 2016

Tech Talk Thursday is an event to expose participants to University/FFRDC, Lab and Industry Partner Technologies, Capabilities or Research Areas of interest. Tech Talk Thursday is concluded with a social meet and greet with all participants.

Event Outcomes

SOFWERX invited presenters to showcase their current technologies, capabilities or research areas that could be of use or interest to USSOCOM.

D-Wave's, Dr. Dahl presented an introduction to quantum computing and explained how D-Wave quantum technology works and the application areas it addresses.

Fatigue Science's, Mr. Zeilstra and Mr. Coleman co-presented on an overview of the application of Fatigue Science technology in a high-performance setting.

Oklahoma State University's, Dr. R. J. Gaeta, Dr. Jamey Jacob and Mr. Gary Ambrose briefed on UAS: Autonomous, Propulsion (low signature/prop/turbine) and Rapid prototyping.
