MacDill STEM Day with SOFWERX

21 March 2018

On 21 March 2018, the SOFWERX STEM team participated in the MacDill Air Force Base STEM Day. The event demonstrated how STEM is implemented in the military and in the community.

SOFWERX had an exhibition table set up to showcase new, novel, and provocative projects and current technologies being innovated in conjunction with SOFWERX.

Event Outcomes

- Approximately 1300 students attended, ranging from grades 7-12.
- There was a high rate of engagement between the attending students and the SOFWERX representatives.
- Connections were made between SOFWERX and potential future interns and the SOFWERX business model was spread throughout the event.
